

The Policy aims at addressing a whole range of issues which could potentially propel India into the top bracket of agricultural exports. It has often been recognized that integration in the global value chain is one of the most certain methods of adopting the best agricultural practices along with attaining productivity gains and cost competitiveness. The objective of doubling the farmer's income will invariably require high levels of income as well as improving in the food value chain. The Department of Commerce would seek the feedback from the stakeholders which would be useful in further fine tuning the measures suggested in sections above. The feedback may be sent in the following mail addresses:
