At the outset, I have pleasure in welcoming all of you on the occasion of 13th Annual General Meeting of Export Promotion Council for EOUs and SEZs (EPCES).

We are thankful to Ministry of Commerce & Industry, all Development Commissioners of Special Economic Zones and all senior officers of Ministry of Commerce & Industry, Ministry of Finance for their support and cooperation in resolving the issues of EOUs and SEZ and for strengthening the Council.

I am glad to inform you that Ministry of Commerce & Industry has issued a notification dated 5.8.2016 which states that SEZ Units, SEZ Developers or Co-Developers will have to take the membership of EPCES for availing exemptions, drawback and concessions. In other words, the membership of EPCES for SEZ Units, SEZ Developers and Co-Developers has become mandatory. With a strong membership base, EPCES will now be able to provide to Government very useful Feedback on Foreign Trade Policy & Union Budget in an effective manner and will also become an effective conduit between the Government and Trade & Industry for resolving the issues of EOUs and SEZs and to promote SEZs and EOUs worldwide. It will also undertake Research/Studies on SEZs/EOUs by experts for the benefits of EOU/SEZ community and export promotion activities in India and abroad.

As you are aware that for Implementation of Para 2.92 of the Handbook of Procedure of Foreign Trade Policy 2015-20, EPCES has adopted electronic voting and authorized NSDL to conduct EPCES elections.

The Union Budget 2016-17 has imposed Sunset Clauses on SEZ Units under Section 10AA and on SEZ Developers under Section 80 1AB. As a result of our constant and persuasive efforts, we have been able to get the Sunset Clause extended for SEZ units upto 31.03.2020. However, the Income Tax benefits under Section 80 1AB are available to SEZ Developers, only if they commence developments before 31.03.2017. We are trying to get these Sunset Clause dates further extended, in view of the slow growth of economy and slowdown in SEZ sector in terms of growth in exports, investments and employment generation, I request the Government to extend the benefits of Section 10AA to SEZ units upto 2023 and also extend the Sunset Clause imposed on SEZ Developers upto 31.3.2020.

I request the Government to take certain steps which would demonstrate its continued support to SEZs. Such steps could include withdrawal or reduction of MAT/DDT rates for SEZs or alternatively the surplus lying unutilized in MAT Account should be refunded, concessional rate of duty equivalent to the lowest rate of FTA on DTA sales by SEZ Units and also allow contract manufacturing in SEZs for DTA market to strengthen the concept of “Make in India”. In order to ensure optimum utilization of installed capacity in SEZs, I further request the Government to allow SEZ units to perform job work for DTA units.

EPCES had taken up the issue of difficulty in closing of Advance Authorization by DTA units at different forums as there are several cases pending with different offices of J DGFT. As a result of continuous follow-up the said issue has been resolved.

We have requested all Development Commissioners to send fresh nominations for EPCES Export Awards for the years 2013-14 and 2014-15. We are in the process of receiving nominations for EPCES Export Awards. The Council intends to organise EPCES Export Awards function in the near future as per the convenience of Hon’ble Minister of State for Commerce & Industry.

I request all those SEZ Units, Developers or Co-Developers and EOUs, who are not members of the Council, to enroll themselves with EPCES as its members. I request members to renew their membership with the Council for the year 2016-17 and also participate in the activities of the Council.

P.C. Nambiar
Chairman
MESSAGE

I am glad to inform that Export Promotion Council for EOUs and SEZs (EPCES), which was set up in January 2003, has completed 13 years.

It gives a sense of satisfaction to note that during the last 13 years, EOU/SEZ sector has performed exceedingly well in terms of exports, investments, manufacturing and generating employment in the country. This sector is playing a vital role in export strategy of our country and contributing substantially to the total exports of the country. At the same time, this sector is also making a distinctive contribution to national, regional and sub-regional development of the country apart from earning valuable foreign exchange for the country.

EPCES has been regularly organizing Open House Meets/Interactive Sessions of EOUs and SEZs in different parts of the country for resolving issues of EOUs and SEZs. Since its inception in 2003, EPCES has organized 65 Open House Meets/Interactive Sessions in different parts of the country. As a result, a large number of issues of EOUs and SEZs have been resolved and the details of the same have been informed to members of the Council from time to time through EPCES Circulars. The details of these EPCES Circulars are available on the website of the Council.

As you are aware, EPCES has been publishing a book every year, which incorporates Notifications/Circulars, relating to EOUs, SEZ Units and SEZ Developers, issued by CBEC, CBDT, DGFT, RBI, updated SEZ Act & updated SEZ Rules. We are bringing out 12th updated version of this book. We will send a complimentary copy of this book to all our members for their smooth day-to-day functioning. We also send complimentary copies of this book to all Development Commissioners. This helps in bringing about uniformity in procedures at all the places. In the last 13 years this book has been of immense help to EOUs/SEZs/SEZ Developers as well as field formations of Development Commissioners, Customs and Central Excise authorities.

Since its inception in 2003, EPCES, along with its members, is regularly participating in trade fairs/exhibitions abroad for increasing exports from the country. In order to publicise the concept of SEZ Scheme abroad and for attracting foreign investments in SEZs in India, EPCES is also taking delegations of SEZs to different countries. On this occasion, EPCES arranges buyer-seller meets and interaction of SEZ Developers/Units with foreign businessmen and investors. I request the members to take advantage of these opportunities by participating in these export promotion activities of the Council and also avail the benefits of Market Access Initiative (MAI) Scheme of Ministry of Commerce & Industry.

I seek active participation and cooperation of all our members in strengthening EPCES which would enable it to effectively take up the issues of EOUs/SEZs with the concerned Government authorities.

Shri P.C. Nambiar, Chairman, EPCES requested the Government to take certain steps which would demonstrate its continued support to SEZs. Such steps could include withdrawal or reduction of MAT/DDT rates for SEZs. Imposition of MAT/DDT on SEZs has dented the investor friendly image of SEZs, created uncertainty in the minds of foreign & domestic investors and has adversely affected the growth, investments, employment and exports from SEZs in India and resulted in loss of valuable foreign exchange earning of the country.

He suggested that rate of MAT should be reduced to its original rate of 7.5% which can be done through a notification, so that Government gets revenue in time and the SEZs are able to set off those advance tax MAT paid within the stipulated period. Reduction/removal of MAT will help in growth of SEZs. For reduction of tax rate, no approval of Parliament is required.

25 37th Meeting of Central Governing Council held on September 28, 2015 at New Delhi.

Immediately after the 12th Annual General Meeting of EPCES, 37th Meeting of Central Governing Council was held on September 28, 2015 at New Delhi to discuss important issues.

26 EPCES attended meeting convened by Commerce Secretary Mrs. Rita A Teaotia with all Export Promotion Councils on October 6, 2015 at New Delhi.

Commerce Secretary, Mrs. Rita A Teaotia convened a meeting with representatives of 27 Export Promotion
Councils to discuss measures to reverse the slowdown in commodity exports, which together account for about 35 per cent of India’s total exports. The meeting was also attended by Shri Anup Wadhawan, Director General of Foreign Trade, Dr. John Joseph, Director General (Export Promotion), Dr. Guruprasad Mohapatra, Joint Secretary Commerce, Shri MadhupVyasa, Director (SEZ), Deptt. of Commerce and Director General EPCES, Dr. L.B. Singhal, Development Commissioner Noida SEZ, Shri Ravi Kapoor, Joint Secretary Commerce and other Central and State government officials. The meeting was convened to discuss the reasons of downfall in exports. August was the ninth month in a row when merchandise exports saw negative growth. On behalf of EPCES, Shri Rahul Gupta, Vice Chairman and Shri Anand Giri, Deputy Director have attended the meeting.

During the meeting, Shri Rahul Gupta, Vice Chairman EPCES specifically raised the issue of imposition of MAT and DDT. He suggested that SEZs must be exempted from MAT, as promised in SEZ Act and Rules or it may be collected at the time of exports. He submitted that interest subvention scheme may be extended to SEZs, best FTA rates may be provided to SEZs, permission to do job work for DTA unit may be provided to SEZs to utilize their spare manufacturing capacity etc.

Commerce Secretary had announced increased allocations for export incentive schemes this year from the earlier Rs 18,000 crore to Rs 21,000 crore and also assured the exporters that their suggestions will be crystallised in a concrete form and specific actions would be taken soon.

It is these sector-specific measures that are being keenly awaited by all the EPCs. Another key area relates to reforms in the SEZs, which were important drivers of growth of jewellery exports from the mid-90s till a few years ago. Last year, GJEPC had commissioned a study by Accenture to understand the hurdles faced by exporters in the SEZs. It placed some key recommendations before the government such as implementation of single window system for all clearances in SEZs; re-negotiation of US GSP benefit for Indian jewellery sector; reduction of paperwork related to exports, etc.

Foremost among them has been the demand for the introduction of a Presumptive Taxation system for the diamond sector. This will bring it on par with the tax systems of competing international centres like Antwerp and Israel, and will also lead to greater transparency, and simplified filing of returns. It is widely believed that tax revenues may actually increase if the system is implemented, as the ease of doing business that it will bring, will be a boost to the industry.

A third area of concern is the policy towards gold which is an important raw material. The industry has been asking for a reduction in the import duty (currently at a high of 10%), especially as the situation on the CAD front has eased. At the same time it is also urging government to ensure availability of duty free gold for small and medium jewellery exporters.

One final issue raised by the industry is the speedy resolution of taxation hurdles in operationalizing the Special Notified Zone (SNZ) for trading in rough diamonds that is being set up in Mumbai.

Highlighting the issues of SEZs, Shri P.C. Nambiar, Chairman, EPCES informed that there had slowdown in SEZ sector in terms of growth in SEZ exports, reduced number of SEZ notifications, slower operationalisation of SEZs, increased number of applications for de-notification of approved SEZs etc. Ministry of Commerce & Industry is in the process of identifying the reasons for this slowdown in SEZ Sector. Chairman, EPCES further informed that it has always been his endeavor to highlight the issues of EOUs/SEZs in an effective manner before the Government authorities from time to time at different fora in different parts of the country.

Shri Nambiar said that imposition of MAT/DDT on SEZs has adversely affected the growth, investments, employment and exports from SEZs in the country and resulted in loss of valuable foreign exchange for the country. This has created lot of uncertainty in the minds of SEZ Developers and Units and has sent wrong signals to the international investment community that is looking at India for its vast resources of skills and manpower.

EPCES was very hopeful that the Government will consider the request of the SEZ community for withdrawal of MAT/DDT immediately to garner additional exports, foreign & domestic investments that would result in accelerated employment generation and would provide great relief to the operational SEZs which would result in bringing in the held-up investments and would also help in providing long term stability and continuity to the SEZ Scheme. In spite of various representations made by the SEZ community, the Government has neither withdrawn MAT & DDT, nor reduce the rates of MAT so far and the matter is still pending with the Ministry.

He suggested that MAT should be totally withdrawn or rate of MAT may be reduced to 7.5% so that Government gets revenue in time and the exporters from SEZs are able to set off those advance tax MAT paid within the stipulated period. A Study on implications of MAT is also proposed.

Some of the major issues of EOUs/SEZs which were also highlighted during the meeting were as under:

Note 12
Significant accounting policies and notes to the financial statements

I. Significant accounting policies

a) The financial statements have been prepared under the historical cost convention on accrual basis and in accordance with the generally accepted accounting principles and applicable accounting standards issued by the Institute of Chartered Accountants of India.

b) Revenue recognition

i) The revenue from membership subscription is recognized, when no significant uncertainty exists on its receipt.

ii) Membership subscriptions and admission fees are accounted on accrual basis except where ultimate collection is considered uncertain. Subscription received in advance is carried forward and adjusted in the year to which it relates.

iii) Interest income is recognized on a time proportion basis taking into account the outstanding amount and applicable rate. Interest income is accounted on time proportionate basis at the applicable rates.

c) Fixed assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation on fixed assets is charged on the written down value method at the rates specified under the Income tax Rules, 1962.

d) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried at lower of cost and net realizable value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline, other than temporary, if any in the value of the investments.

e) Retirement benefits

Liability on account of gratuity payable has been provided in accordance with the Gratuity Act, 1972 and liability for leave encashment for unavailed leaves is provided on the basis of encashable leaves.

f) Impairment of assets

The Council on an annual basis makes an assessment of any indicator that may lead to impairment of assets. If any such indication exists, the Council estimates the recoverable amount of the assets. If such recoverable amount is less than the carrying amount, then the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is charged to the Income and Expenditure Account. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

A disclosure is made for a contingent liability when there is a:

- possible obligation, the existence of which will be confirmed by the occurrence/non-occurrence of one or more uncertain events, not fully within the control of the Council; or
- present obligation, where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- present obligation, where a reliable estimate cannot be made.
