List of participants is annexed

At the outset Chairman observed that in an independent evaluation by AS&FA and Finance Division, DOC, about the utilization of MAI funds by various Export Promotion Organizations revealed some organizations receiving disproportionate grants as compared to the rest. AS&FA, DOC further explained that spillover of funding from the previous years is a cause of concern as it is blocking the space for granting assistance to future export priority projects, in view of past liability. Chairman decided that in future grants sanctioned and not claimed within three months of the completion of the event will not be released. In fact, in such projects the advance grants, if already released, have to be refunded with interest, failing which the organization will be blacklisted for receiving future assistance under MAI.

Chairman also observed that it will be the responsibility of the nodal Joint Secretaries of the “India Shows” to ensure closure of the accounts within three months of the completion of the event.
