

## **CONSTRUCTION OF A SERVICES TRADE RESTRICTIVENESS INDEX**

The Indian Institute of Foreign Trade (IIFT) is conducting a study to assess the nature and extent of existing barriers that service exporters and importers face while trading their services in the world market. This initiative seeks to establish an objective and transparent index which is comprehensive and representative in capturing the relevant service sector characteristics and parameters which are globally relevant.

Please click <http://docs.iift.ac.in/survey/stri/> to contribute to this project. Your insights and hands-on-experience on the challenges faced by service traders will be extremely useful to identify priority areas of reforms for a set of both developed and developing economies.

*For more details about the project, please click <http://docs.iift.ac.in/survey/stri/brief.pdf> Guidelines for filling in your responses are available on this <http://docs.iift.ac.in/survey/stri/Guidelines.pdf>*
